INTRODUCTION

As we all know, the best way to improve a language is by total immersion – that is to say, spending time in a foreign country having contact with the native people, actually living the language.

GUARANTEE

The success of any of our courses depends largely on the attitude of the student. If they are prepared to make an effort to speak the chosen language and take advantage of this wonderful opportunity, then we are sure that everyone will be more than happy with the results.

The English Learning Centre
“Javea Summer School”
offers an opportunity for other countries
to follow a 2 – 3 week intensive Spanish course
on the beautiful Costa Blanca, starting in
August 2004.

The students attend classes from 9 am to
1:30 pm where they will work to better their Spanish in
all aspects; grammar, pronunciation, expression etc.

The course is focused on giving the students
as much exposure as possible to the language,
and, with this in mind, the entire day will be
spent speaking Spanish – whether at school,
on the beach or in the pool. Wherever they are, they are
expected to try and express themselves
in Spanish.

HOST FAMILIES

The students will live with a Spanish family,
either individually or in pairs, living the
language and putting into practice what they
have learned.

The English Learning Centre is also happy to
offer
“Summer Courses in the UK”

Depending on the location, students would
normally board with English families
while they complete a two week intensive
course, focused on bettering their fluency.
